CORE CLASSES

Core stability stresses the importance of the body's center of power. The core is the foundation for all movement. Regular conditioning of the core muscles is vital for preventing injuries, correcting posture and ensuring more efficient functional movement patterns. The benefit of core training is to develop a functional fitness foundation, essential to both daily living and regular exercise.

CROSS-TRAINING CLASSES

Cross-training is the way to give yourself a full body workout. In cross-training, two or more types of exercise are performed in one workout. Cross-training offers great advantages: adds variety to your workouts to keep you interested and progressing; develops your entire body, rather than specific body parts or energy systems (aerobic vs anaerobic); distributes the load of training among various body parts, thus reducing the risk of injury; and maximizes your time. We have the most diverse and effective cross-training classes of any club in the area.

SCULPTING/WEIGHT TRAINING CLASSES

Resistance is not futile! The most effective way to change your body composition is through weight training. It is effective because it builds muscle and muscle is the key to changing your body shape. Weight training stimulates your metabolism and the caloric burning effect lasts long after your weight training class. It also strengthens joints and aids in increasing bone density.
